Whilst the council are in a "growth" position of NNDR income a levy is paid of 50% of all growth above the Government baseline. For Breckland this levy is paid into the Norfolk Pool for use on economic development projects in the area. As detailed, the proposed relief above would reduce the overall NNDR income by £195,418. This would in turn reduce the levy payable by Breckland by £39,084 meaning the overall impact on Breckland would be £39,084 per year
