LETTER OF REPRESENTATION

One further representation has been received. The issues raised have been reported in the earlier report but can be summarised as follows:

- Far too much new development in Great Ellingham, and this needs to be stopped.
- The highways and other infrastructure is not capable of sustaining any of the recent development applied for or granted permission for, so it would be foolish to allow any further development.

RECOMMENDATION

APPROVAL is recommended in accordance with the assessment made in the Committee Report.
