Additional comment:

Historic Buildings Officer

A Listed Buildings Assessment has been submitted by the applicant dated February 2020, report ref: AHC REF: PM/9853, completed by Asset Heritage Consulting Ltd.

Comment received from Historic Buildings Officer:

Having carefully considered the content of the report, I am satisfied – with the proposed addition of further landscape screening to the north of the application site – that we cannot object to this application from an historic built environment perspective.

The recommendation remains as approval.
