

Settlement boundaries proposed to remain the same in Site Specific

Settlement Boundary	Reason for continuing 'status quo'
Beetley	Boundary is logical, defensible and has scope to allow some modest potential for infilling without causing harm to the form and character of the village.
Bintree	Boundary is logical, defensible and has scope to allow some modest potential for infilling without causing harm to the form and character of the village.
Brisley	Remaining northern part of settlement boundary is logical and provides some opportunities for infilling without causing harm to the form and character of the village.
Garvestone	Boundary is logical, defensible and has scope to allow some modest potential for infilling without causing harm to the form and character of the village.
Scarning (village)	Boundary is logical, defensible and has scope to allow some modest potential for infilling without causing harm to the form and character of the village.
Yaxham (Clint Green)	The existing settlement boundary is logical and defensible.
