**PLANNING POLICY NOTE**

**THE STRENGTH OF PLANNING POLICY IN DETERMINING PLANNING APPLICATIONS**

The Planning process is set up, **IN THE PUBLIC INTEREST**, to protect the public from the unacceptable planning activities of private individuals and development companies. Planning is primarily concerned to deal with issues of land use and the way they affect the environment.

The Council has a DUTY, through the Planning & Compulsory Purchase Act 2004, to prepare **Local Development Documents (DPDs)** to provide a statutory framework for planning decisions. The **Development Plan** for Breckland **currently** consists of a suite of documents. The primary document which sets out the overarching planning strategy for the District and the local planning policies is the Core Strategy and Development Control Policies document. This was adopted by Breckland Council on 17<sup>th</sup> December 2009 and is the local starting point in the determination of planning applications. Breckland Council has also adopted its Site Specific Policies and Proposals DPD, on 19<sup>th</sup> January 2012. The document allocates specific areas of land for development and revised settlement boundaries.

Breckland's Plan contains the Council's planning policies, which must be consistent with Government policy which is currently the National Planning Policy Framework (NPPF) and accompanying technical guidance.

The full public scrutiny of the Council's proposals will give the Plan an exceptional weight when dealing with planning applications.

This shift towards a "Plan-led" planning system is a major feature of planning legislation. The Planning & Compulsory Purchase Act 2004, states that ***planning applications should be determined in accordance with the policies of the Plan, unless material considerations which are relevant to planning indicate otherwise.***

The NPPF states that the purpose of the planning system is to achieve sustainable development. The core planning principles contained within the NPPF are summarised as:

- To be genuinely plan led
- To drive and support sustainable economic development
- Seek high quality design
- Conserve and enhance the natural environment
- Encourage the effective use of land
- Conserve heritage assets

Unless there are special reasons to do otherwise, planning permissions "run with the land", and are NOT personal licences.

The factors to be used in determining applications will relate to the effect on the "public at large" and will NOT be those that refer to private interests.

Personal circumstances of applicants "will rarely" be an influencing factor, **and then, only** when the planning issues are "finely balanced".

**THEREFORE we will:**

- **acknowledge the strength of our policies,**
- **be consistent in the application of our policy, and**
- **if we need to adapt our policy, we should do it through the LDF process.**

**Decisions which are finely balanced, and which contradict policy will be recorded in detail, to explain and justify the decision, and the strength of the material planning reasons for doing so.**

**LOCAL COUNCILS**

**OCCASIONALLY, THERE ARE CONFLICTS WITH THE VIEWS OF THE PARISH OR TOWN COUNCIL. WHY IS THIS?**

We ask local parish and town councils to recognise that comments received are taken into account. Where we disagree with those comments it will be because:

- Districts look to "wider" policies, and national, regional and county planning strategy.
- Other consultation responses may have affected our recommendation.
- There is an honest difference of opinion.
