TITLE: Greater Thetford Partnership Scope
AUTHOR: Anna Graves, Chief Executive, Breckland Council
DATE: 10 July 2019
PURPOSE: To agree the revised purpose of the Greater Thetford Partnership

What is the output we are looking for?

- Growth and delivery of key sites re housing and employment
- Funding opportunities to ensure these can be delivered
- Support to existing communities to benefit from this growth
- Environment and public realm improvements, both traffic movements and river corridor
- Pride in the place for all
- A safe and more inviting town centre
- A greater understanding locally of what ,who, how and when delivery is to happen
- Oversee the delivery of external major funding bids if successful eg High Streets fund

Who do we need to work with to achieve the above?

No single organisation on its own can do the above. Strategic partners are those with cash/people/legal authority/democratic mandate to deliver. Engagement partners are those who live, work and have a vested interest in creating a better Greater Thetford. Any of the engagement partners can make representations to the Great Thetford Board as required.

Strategic Partner	Engagement partners
Norfolk county council	Local resident groups
Breckland council	Local businesses sub group of the Forum
Thetford Town Council	Voluntary organisation
Croxton Parish council	Youth groups
Kilverstone and Brettenham Parish Council	Keystone Partnership
Flagship	Schools, academies and FE colleges
Homes England	
Highways Agency	
Power and utilities companies	
Developers and land owners	
Local Enterprise partnership	

How do we do this?

Breckland Council acting as an enabler, delivering on its local plan objectives and its community leadership role for improved outcomes for local people, and will provide administrative support the Greater Thetford Partnership. The Leader of Breckland will chair the Partnership meetings.

The Partnership will develop the “vision” and a subsequent “delivery plan” for Greater Thetford, ensuring there the right resources are dedicated to co-ordinate and collaborate in its delivery. A dedicated partnership officer role will be funded and directed by the partnership.

The Greater Thetford Partnership includes county, district, town and parish councillors. Although it has no delegation of budgets nor decision making, its strength lies in acting as a “consultative board”, shaping direction and making recommendations to partner agencies. Any decisions that would need to be referred back to respective organisations is done so in spirit of collaboration and understanding. The members on the Greater Thetford Partnership should be briefed according to their relative roles, so a flow of information sharing and collaboration can happen.

A Greater Thetford Forum, will be convened every 6 months for public debate and questions. Invitation to this forum will be widespread across all engagement partners. This will be an interactive and involving process to ensure a wider understanding of the progress, connections and opportunities.

TITLE: Greater Thetford Partnership Relationship Manager

AUTHOR: Cassie Ruffell, Regeneration Manager, Breckland Council

DATE: 10 July 2019

PURPOSE: To discuss the draft job description for a new role to support the Partnership.

Role Purpose:

To lead partnership and stakeholder engagement within the Greater Thetford area on behalf of the Greater Thetford Partnership (GTP) Board, to promote ambitions, priorities and achievements to all stakeholders and help realise the vision for Thetford.

The GTP Relationship Manager works to develop and maintain relationships and stakeholder relations with local, regional and national public and private partners in order to deliver priorities and objectives set by the strategic board. You will work closely with other local and regional government departments, as well as working with businesses, educational partners, communities and other interested stakeholder organisations.

To lead on developing a strategic approach to creating a distinct, positive and sustainable place brand for Thetford.

Key Objectives:

- Management of stakeholder engagement and delivery against identified priorities within the delivery plan.
- Accountable for driving forward new and innovative approaches to the delivery of public affairs and stakeholder relations.
- Engage with stakeholders to gain their support and influence in championing a wider local and regional agenda.
- To lead on and drive leverage, and value from our business relationships to facilitate excellent rapport, support and loyalty.
- Ensure high quality stakeholder services are delivered effectively, efficiently and consistently.
- Manage relationships with politicians and officials, identifying advocacy opportunities in Thetford, securing meetings, providing expertise and responding to requests for help and advice as appropriate.
- Support business development with engaging new and existing partners to develop and understand the local intelligence to support and influence delivery.
- Develop and deliver innovative and creative stakeholder relations communication strategy to support the GTP board to realise its strategic priorities and objectives.

- Become an advocate for Thetford and develop a place based branding approach which creates a collective marketing and communications strategy.
- Forge strong partnerships and ensure communications with all local, regional and national public and private sector stakeholders take a joined up approach.
- Monitor and manage GTP communications and marketing
- Manage disputes and differing views, as necessary

Skills and Experience required:

- Ability to quickly build, manage and sustain strong relationships with internal and external stakeholders, using high level of influencing/diplomacy skills, particularly where they have differing requirements, demands and measures of success.
- Collaborative approach and comfortable working in a dynamic environment.
- Experience in marketing, promoting and PR
- Ability to apply consistently strong and effective written and verbal communication and presentation skills that inspire confidence, trust and respect.
- Excellent interpersonal skills with the ability and confidence to persuade, advise, negotiate and influence audiences from a variety of organisations.
- Strong networking and communication skills and ability to communicate effectively with different audiences.
- Commercially driven and innovative forward thinker.
- Excellent organiser and responsive, with attention to detail

Competencies:

- Communication – ability to clearly get the message understood by adopting a range of styles and techniques appropriate to the audience. To be transparent and keep stakeholders up to speed with delivery.
- Strategic thinker- able to take a strategic view of the market and audience to ensure buy in to the GTP vision.
- Stakeholder and Commercial Awareness – able to understand stakeholder trends, insights and learnings to influence key decision making.
- Collaborative stakeholder management – ability to build and maintain effective working relationships across different stakeholders. Ability to present sound information and well reasoned arguments to convince others. Able to use different influencing techniques to convince stakeholders.

- Problem solving & creative thinking – ability to transform creative into practical. Can review existing situations and come up with creative solutions.
- Planning & Organising – able to think ahead in order to establish an efficient and appropriate course of action. Prioritise plans and activities taking account of all relevant issues and factors such as deadlines and resource requirements.

DRAFT

TITLE: Greater Thetford Delivery Plan
AUTHOR: Anna Graves, Chief Executive, Breckland Council
DATE: 10 July 2019
PURPOSE: To discuss and agree the draft delivery plan for Greater Thetford

1. Background

The Greater Thetford Development Partnership has representation from parish, town, district and county government bodies and was set up to develop and deliver a vision for the Greater Thetford area which covers the communities in and around the parishes of Thetford, Croxton, Brettenham and Kilverstone.

2. Vision, Aim and Objectives

4. TO REVITALISE THETFORD TOWN CENTRE AND IMPROVE CONNECTIVITY WITH PUBLIC AND OTHER FORMS OF TRANSPORT			
4.1	Actions	Timescale	Ownership
To enhance provision of walking and cycling infrastructure and connectivity to all modes of transport	<p>Thetford Transport Network Improvement Strategy is being undertaken. This includes assessing the implications on the transport network of future growth, and the likely infrastructure requirements; consideration of walking and cycling connections within the town; and examination of potential solutions to some of the key issues.</p>	Autumn 2019	NCC
	<p>Progress:- draft strategy is being studied. Emerging issues include: The Walking and Cycling report looked at three routes which have the potential to be improved:</p> <ul style="list-style-type: none"> - Route A: London Road, from the commercial areas at the west of the town to the town centre. - Route B: Croxton Road, connecting the Thetford Urban Extension (west), existing residential areas, the Thetford Academy and town centre. - Route C: Kilverstone, connecting the Thetford Urban Extension (east), Kilverstone, other residential areas and the town centre. <p>The technical work on congestion and connectivity has found that a number of junctions are currently at, or close to, capacity, or will be in the future given the growth in and around the town. These include A134 Brandon Road / London Road / A134 Bury Road (currently operating over capacity) and A1075 / Norwich Road / A1066 Mundford Road / A1066 Hurth Way Junction (over capacity in peak period in 2036, but phase 1 of the Thetford housing is expected to deliver improvements).</p> <p>The study also considered issues raised about traffic on Nuns' Bridges Road and found that future traffic growth is likely to cause lengthy queues and delays on this route. The study noted that that there is a key desire line for traffic from the north of the town, essentially between the A1088 and A134.</p> <p>Outcomes:- The completed strategy will be adopted by NCC after which consideration will be given as to how funding can be raised to implement the strategy.</p>

4.2	Actions	Timescale	Ownership
To revitalise the retail offer	ShopAppy online promotion and trading platform for local businesses	ongoing	BC
	Progress:- 16 Thetford businesses have signed up to the scheme.		
	Outcomes:- support local independent retailers		
	Planning Policy	Sept 2019	BC
	Progress:- Policy EC 05 of the Breckland Local Plan seeks to support and enhance the vitality of the District's hierarchy of centres and seeks to direct floorspace requirements in line with the breakdown in the 2017 retail study projections over the plan period. Thetford is identified as a Key Centre for development and change with a requirement for an additional 1,509m2 convenience, 2,986m2 comparison and 757m2 gross food and beverage floorspace.		
	The Local Plan seeks to enhance local provision through focusing retail and leisure proposals within town centres, with retail uses focused within the Primary Shopping Areas. The development of additional retail floorspace outside of defined centres will be restricted where it fails the sequential and impact tests (except where it serves local need). Retail frontages and town centre boundaries are defined on the policies maps.		
In addition, the Local Plan town centre and retail strategy seeks to: Support the diversity of main town centre uses in order to enhance their continued vitality and viability with regard to retail, business, cultural and leisure services; Allow the appropriate provision of larger units in town centres through the amalgamation of units in order to attract those retailers requiring larger modern shop units as long as the overall retail mix is enhanced.

To review car parking and route management to ensure town centre is accessible	Planning Policy	ongoing	BC
	<p>Progress:- Government policy seeks to restrict levels of parking associated with new development in order to reduce the use of the private car and promote other more sustainable forms of transport. The provision of car parking can also affect the appearance of a development and result in an inefficient use of land. The NPPF allows planning authorities to set local parking standards taking into account of local circumstances. It is considered essential that an appropriate amount of parking is provided in new developments given the rural nature of Breckland and the current level of public transport provision within the District. In particular, adequate parking should be provided as part of residential developments.</p> <p>In terms of trip destination and commercial development there is more scope to manage travel patterns and reduce parking vehicle provision. Here the accessibility by other modes of transport and potential travel planning measures can support a reduced parking provision and enable a more efficient use of land.</p> <p>However, at both the home and point of destination, insufficient or inappropriately located parking can lead to problems of overspill parking from the development site onto surrounding streets and verges creating highway safety problems and unsightly environments.</p>		
	<p>Outcomes:- In considering appropriate levels of parking, reference will be given to the parking provision standards as detailed in the Local Plan. Residential parking standards will be taken into account where necessary to manage the local road network and to avoid inappropriate on street parking. However, they will be applied flexibly having regard to local circumstances and proposals should reflect how they are to provide adequate off road parking.</p>
