

# Climate Change Agenda

## Local Strategic Partnership

Sarah Bruton

Environmental Services Manager

Breckland Council

# Aims

- To update you on the Councils actions to date
- To provide a summary of the new national indicators for climate change
- To discuss how the LSP can work together to achieve our aims and objectives for climate change

# Setting the scene

## Norfolk LAA Theme Priority

Mitigate and adapt to the impacts of climate change in the county

## Sustainable Community Strategy

Minimise the impact of Climate Change by all those living and working in the district

## Role for the Strategic partnership

## Norfolk Climate change strategy

## Individual organisations environment strategies

# Key drivers - National Indicators

## **NI 185**

Percentage CO<sub>2</sub> reduction from LA Operations

## **NI 186**

Per capita CO<sub>2</sub> emissions in the **LA area**

## **NI188**

Planning to adapt to Climate Change

# National Indicators

NI 185

## Percentage C02 reduction from LA Operations

**Aim** – to measure the progress of LA's in reducing C02 emissions from analysis of energy and fuel use in their relevant buildings and transport

This includes:

- All Council offices, including contact centres
- Contractors who undertake work on our behalf

# National Indicators

## NI 186 – Per capita CO2 emissions in the **LA area**

This indicator relies on centrally produced statistics (DEFRA) to measure end user CO2 emissions in the local area from:

- Business and Public Sector
- Domestic housing
- Road transport

### **Breckland's Target – 3.4% reduction**

- Needs a joined up approach via Norfolk Climate Change Group
- ALL your actions count towards reducing CO2 for this NI
- Measurability for this indicator is a list of actions from all partners (events/projects)

# National Indicators

## NI188 Planning to adapt to Climate Change

Managed by NCC

**Aim** – to embed the management of climate risks and opportunities across all levels of services, plans and estates.

- Partnership working essential

### 5 levels

- 0 - Pulling together sources of risk assessment and adaptation related planning
- 5 – Expect LAA and LSP partners to be actively implementing the actions in their action plan

# The role of the LSP

- Breckland LSP Environment Strategy?
- Partnership project?
- Environment working group?

# Project Ideas

- Eco House – visitor attraction
- An eco garden residents - involved from the outset in creating not only a functioning and productive garden, but also a template which could be copied by others
- Give a Community building such as a village hall an eco-makeover
- An entire eco village! Ashill recently came 3rd in the Energy Saving Trust's 'Green Village' competition

# In conclusion

- What are partners doing already?
- How can we move forward with this agenda?
