

## **BRECKLAND DISTRICT COUNCIL**

**Report of:** Councillor Mark Robinson- Executive Member for Customer, Digital and Performance

**To:** Council- 20<sup>th</sup> January 2022

**Author:** Ryan Pack- Innovation and Change Business Partner

**Subject:** Breckland Council Performance Framework

**Purpose:** To provide members with the council's new framework for performance management

### **Recommendation(s):**

- 1) To agree to the adoption of the draft performance framework

## **1.0 BACKGROUND**

- 1.1 Breckland council currently manages performance through various means including an internal performance board and the council's committee system.
- 1.2 As a result of using multiple systems of governance, there needs to be an overall framework that ties together these elements.
- 1.3 Without a framework performance management at the council could become with different levels focusing on different areas of performance or issues.
- 1.4 The performance framework sets out how performance is managed at different levels of the organisation and what information is being scrutinised to present a clear picture as to how the council approaches performance management.
- 1.5 The framework also sets out key definitions for performance management such as how the council defines a key performance indicator. A result of having agreed definitions such as this is that all stakeholders understand information is categorised in a certain way.
- 1.6 By setting out these criteria and definitions, the council will be able to ensure that performance information is correctly identified and reported to the relevant body.
- 1.7 The framework has been produced in conjunction with the best practice set out by the council's audit team as well as being in line with the Local Government Associations best practice performance framework.
- 1.8 The framework has also been reviewed and approved by the Overview and Scrutiny committee earlier in the year.
