100/21 LOCAL PLAN UPDATE (STANDING ITEM)

Simon Wood, Director of Planning and Building Control informed Members that Cabinet resolved on 20 September 2021 to begin a single policy partial review alongside a full review that would also include a public consultation period. The decision has been called-in and will therefore be considered at Overview and Scrutiny on 28 October 2021.

Councillor Atterwill informed that he was one of the Members that had called the decision in and had written to the Chairman to ask if he would consider a special meeting, earlier than the 28 October, to consider this item.

101/21 5 YEAR HOUSING SUPPLY REPORT (MARCH 2021)

Andrew D'Arcy, Planning Policy Manager presented the report that provided an update on the current 5-year housing land supply position (as of 31 March 2021).

Breckland Council's position statement saw the total housing requirement set at 3985, however the predicted housing supply within the District was set above this figure at 4457. Members were asked to note that since the report had been published (page 23) there had been an oversight, as a site that was granted planning permission prior to 1 April 2021 had inadvertently been omitted from the report and therefore the supply should read 5.63 and not 5.59.

Councillor Atterwill asked if the report included the allowance of the Attleborough Sustainable Urban Extension (SUE). Members heard that as this delivery was still at the outline stage, it was anticipated that delivery of this project would not be seen until year 3 of the 5-year supply and therefore a cautious allowance had been made. The Director of Planning and Building Control added that it was anticipated that a reserved matters application would be received early 2022 with the aim to be on site for an accelerated delivery within 12 – 18 months.

Councillor Kybird raised that the report listed detailed applications of the Thetford SUE but noted that whilst the Red House development was part of the SUE it had not been listed. He also mentioned that there did not appear to be a step change of delivery within the Thetford SUE. Members heard that the figures for Thetford had been based on the trajectory rates that had been provided. In addition, in order to meet the Local Plan requirement there had to be a step change at some point and the Attleborough development would be the key to future housing within the District.

RESOLVED that:

- 1) the content of the 5-year Housing Supply Statement be noted and agreed that it represented the current position of the Council.
- 2) the use of the report in Development Management decision making be agreed.

102/21 TPO 2021 NO.5: BULLOCK PARK, SHIPDHAM
