

APPENDIX B: COMPONENTS OF THE STRATEGY

Contents:

□ Inflation □ Income Strategy □ Grants □ Lobbying □ Council Tax Base □ Expenditure and Income □ Council Tax
□ Discounts for Second Homes □ Resource Allocation □ Comprehensive Performance Assessment (CPA) □
Partnerships □ Balances and Reserves □ Provisions □ Approved Treasury and Investment Strategy □ Balance
Sheet □ Balance Sheet Analysis □ Strategic Financial Measures

There will be no contingency provision for inflation, it must be contained within the overall base budget. The only exception to this will be pay awards (which are negotiated locally), and contractual commitments.

Income Strategy

As part of our overall income strategy we will seek to:

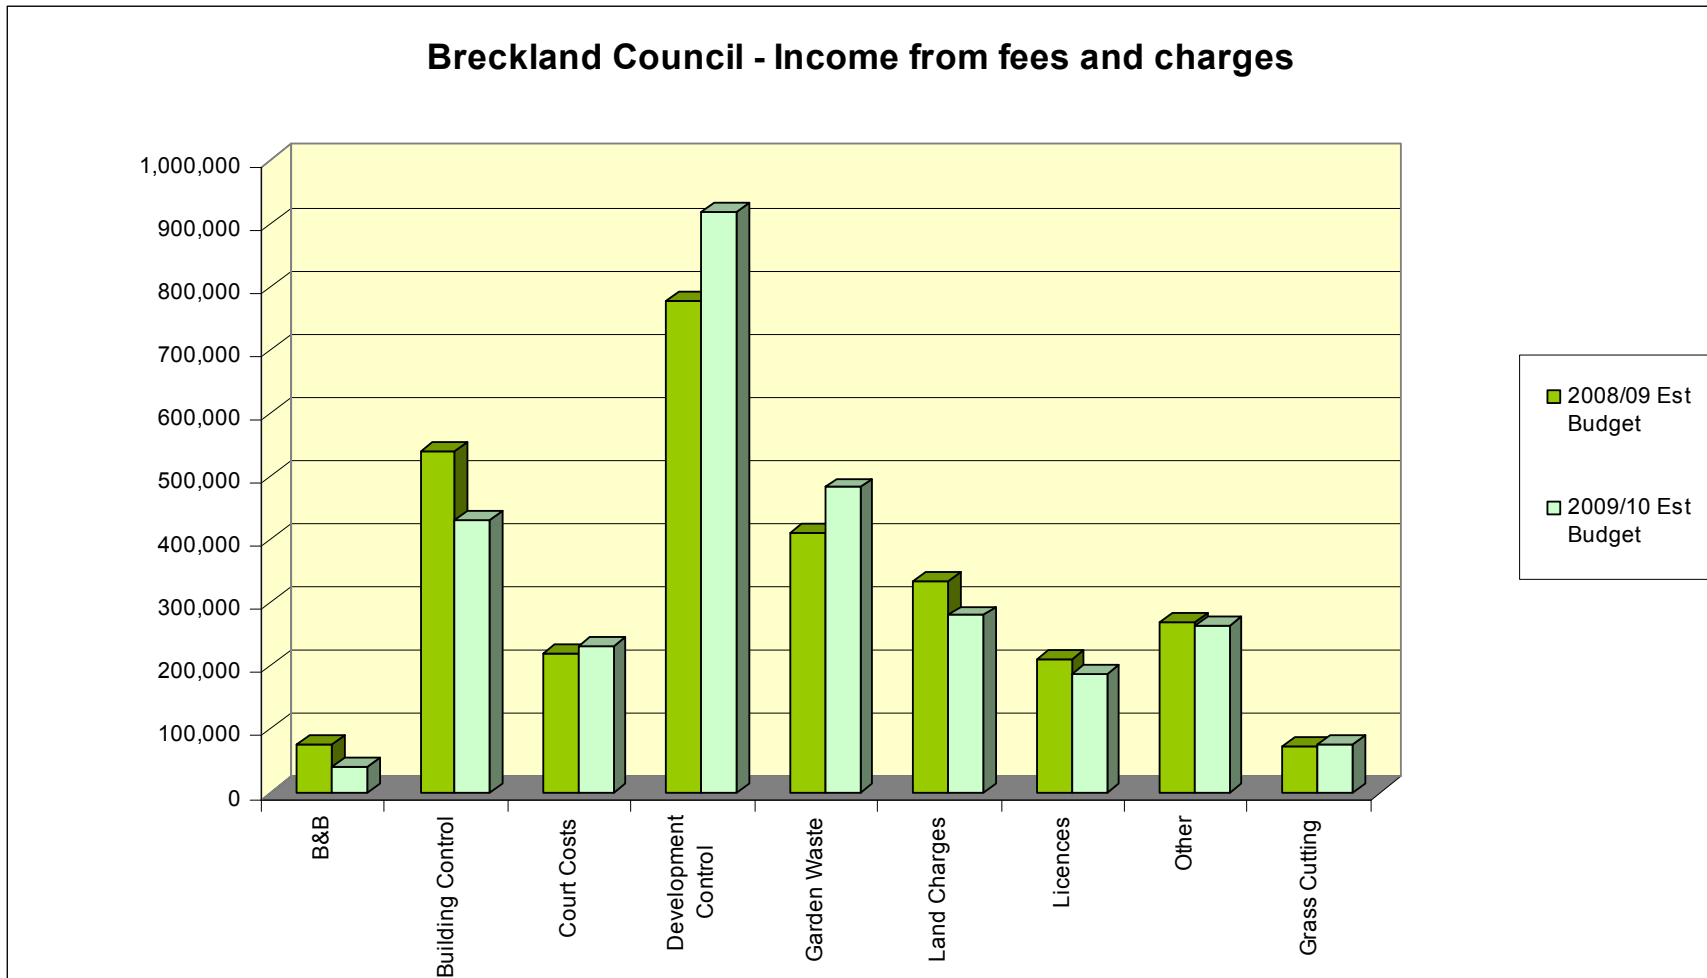

- Ensure that the yield from fees and charges matches the increase in base budget for services that levy fees and charges, otherwise the shortfall will fall upon the council tax payer.
- Maximise the return from the Council's asset holdings
- Annually review fees and charges for discretionary services.
- Ensure statutory charges are implemented.
- Monitor compliance with the corporate charging policy and corporate debt policy
- Set targets for income collection and levels of arrears. These will be monitored, reported to managers and members and necessary action taken when needed.
- Maintain detailed collection and recovery timetables governing activity for all major funds.
- Maximise gains from the Local Authority Business Growth Incentive scheme (and successor schemes).
- Maintain and seek to increase our ratio of sales, fees and charges in relation to total expenditure.
- Treat windfall income as a corporate resource.
- Establish rules for the operation of Trading Units so that they can trade effectively.
- Use enforcement remedies effectively
- Seek to minimise benefit subsidy losses.

The chart below illustrates income from sales, fees and charges as a proportion of total expenditure for Breckland's nearest neighbours group of comparative councils. The nearest neighbours do not represent the nearest geographical neighbours to Breckland, but the nearest comparatives in terms of other variables such as population, deprivation, etc.

Sales, fees and charges as a percentage of total service expenditure – Nearest neighbours (2007-2008)

In total £2.9m is due in from fees and charges in the 2009-10 budget. The chart below shows the main categories of fee income in 2009-10 (and 2008-09 for comparison).

The chart below shows the major categories of income to the general fund from 2007/08 to 2013/14.

Grants

The Council will use external funding opportunities and specific grants to meet Government targets and to improve services e.g. planning delivery grant, DEFRA (Department of the Environment Food and Rural Affairs), waste grant, benefits funding. However, where grants are available only over fixed timescales, we will have a defined exit strategy or efficiency programme to ensure the ongoing cost doesn't fall upon the council tax payer or tenant.

We will endeavour to claim up to the maximum subsidy entitlements on grants.

We will follow the Audit Commissions guidance on grants '*Claims and returns: Good practice for authorities*'.

Lobbying

The authority is committed to lobbying the Government to secure adequate funding for local authorities. We will support the Authority's membership of special interest groups that reflect our issues. We will also work with the Norfolk Finance Officers' Group and the Society of District Council Treasurers. We will focus our lobbying on a number of key issues such:-

- Government grant distribution formula, and the raw deal that very rural areas get from the formula
- Population especially migrant workers

Council Tax Base

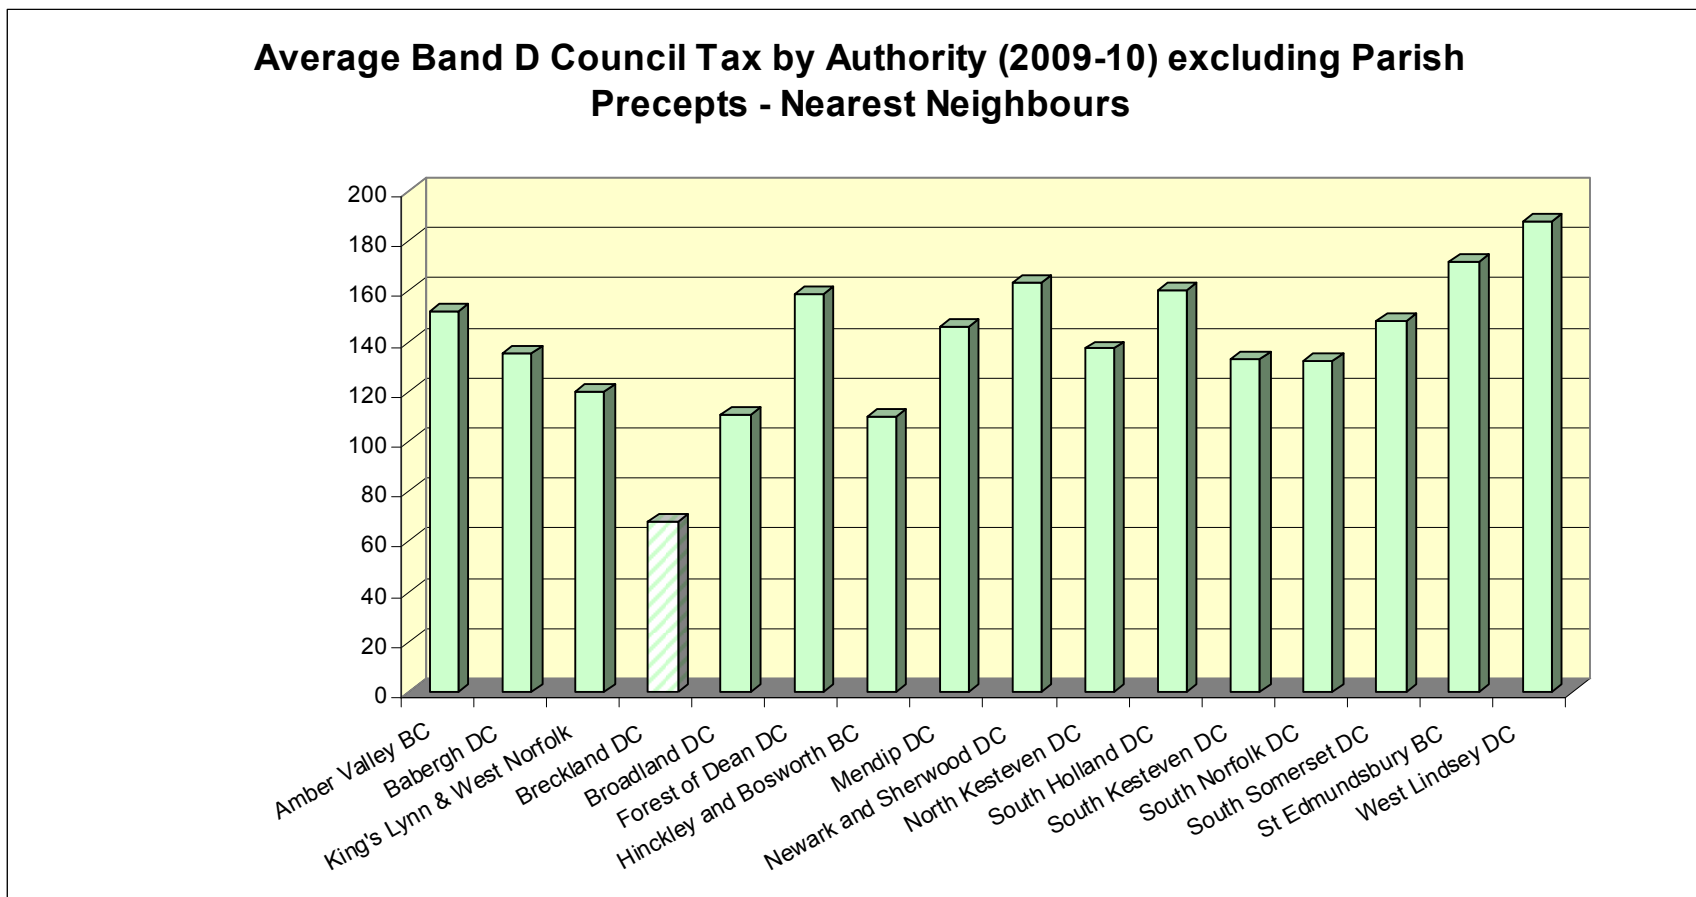

As part of our strategy we will work to refine our estimating processes to ensure that the tax base is set at a maximum achievable level for council tax setting purposes and spans a five year time horizon.

	Norfolk County Council £	Norfolk Police Authority £	Breckland (incl. Special Expenses) £	Parish £	Total £	Increase %
2003/04	879.12	121.95	50.60	38.59	1,090.26	-
2004/05	929.70	138.69	56.84	39.86	1,165.09	6.9
2005/06	956.70	145.53	57.98	42.21	1,202.42	3.2
2006/07	1,004.40	154.17	59.14	46.37	1,264.08	5.1
2007/08	1,052.10	164.88	60.32	49.25	1,326.55	4.9
2008/09	1,091.52	178.56	61.98	52.15	1,384.21	4.4
2009/10	1,123.74	185.58	64.05	55.99	1,429.36	3.3

Of all the homes in our area 78% are in Bands A-C, 55% are in Band A or B. The majority of homes pay less than £1.23 a week towards the District Services we provide. An average property in Breckland is in band B rather than band D as originally assumed by the Government. Therefore, the average council tax in Breckland in 2009/10 is £1,112 rather than the headline figure of £1,429. This represented an increase of £0.67 per week on an average property in Breckland.

In England the average council tax in 2009/10 for a Band D dwelling (occupied by two adults, including parish precepts) is £1,414, compared with £1,373 in 2008/09. This equates to an average increase in council tax between 2008/09 and 2009/10 of 3%. (*Source: CLG June 2009*).

The Audit Commission compares us with our nearest neighbours (similar types of authority) – the following graph shows average Band D Council Tax levels including Parish Precepts for 2009/10.

The Comprehensive Spending Review 2007 (CSR07) covers the three year period 2008/09 to 2010/11. Formula Grant

allocations for each council were announced in early December 2007 and finalised in late January 2008.

	2005/06 Final £000's	2006/07 Final £000's	2007/08 Final £000's	2008/09 Final £000's	2009/10 Final £000's	2010/11 Provisional £000's	2011/12 Predicted £000's	2012/13 Predicted £000's	2013/14 Predicted £000's
RSG	5,061	1,597	1,494	1,316	1,351	1,382	1,413	1,445	1,478
NNDR	3,594	8,276	8,905	9,456	9,706	9,927	10,153	10,383	10,619
Total	8,655	9,873	10,399	10,772	11,057	11,309	11,566	11,828	12,097

The predicted growth in allocations are based on CSR07 increases, the future allocation levels are seen as a key risk to the authority and will be reviewed in greater detail as part of budget setting.

The table below shows predicted revenue budgets

	2009/10	2010/11	2011/12	2012/13	2013/14	2014/15
Target Council Tax Band D	£64.05	£64.05	£64.05	£64.05	£65.97	£67.95
Target council Tax Increase	3.35%	0%	0%	0%	3%	3%
Forecast Base Budget (excl parish precepts)	£13.99m	£14.25m	£14.59m	£14.88m	£15.26m	£15.65m
Predicted Government Grant	(£11.06m)	(£11.31m)	(£11.57m)	(£11.83m)	(£12.10m)	(£12.37m)
Predicted Other Grants	(£0.28m)	(£0.29m)	(£0.29m)	(£0.29m)	(£0.29m)	(£0.29m)
Estimated Collection Fund surplus/(deficit)	£0.04m	£0.06m	£0	£0	£0	£0
Estimated Council Tax Base	42,051	42,261	42,684	43,110	43,541	43,976

The tables below show how the components of income and expenditure are made up. Supplies and Services costs are the most significant expenditure area which is under our direct control, closely followed by Staffing costs. Many aspects of transfer payments are demand led and re-imbursed through government grant e.g. housing benefit payments.

General Fund Income

Council Tax

Members have indicated that they wish to aspire to a 0% council tax increase for 2010/11 with an aspirational target to maintain a 0% increase for a further 2 years. However, this aspiration will be subject to the Council's ability to provide the necessary services to its community and maintain the stability of public finances.

Discounts for Second Homes

We apply council tax discount for second homes at a minimum of 10%.

Resource Allocation

To demonstrate how we make best use of our resources, we analyse our budgets to show how they support our corporate priorities. We will use our resource allocation model to identify how the different budget areas contribute to Breckland's priorities.

An analysis of net General Fund expenditure on statutory and discretionary services over the period 2007/08 to 2013/14 is shown over the page.

General Fund Net Expenditure on Statutory & Discretionary Services

Comprehensive Performance Assessment (CPA)

The Authority was judged as fair under 'CPA'. The Council is committed to achieving a level 3 "consistently above minimum requirements -performing well" and has an improvement plan. The council will be subject to an annual Use of Resources assessment and a Direction of Travel review.

Breckland : CPA Use of Resources Scores				
	2004/05	2005/06	2006/07	2007/08
Financial Reporting	3	2	1	2
Financial Management	2	2	2	3
Financial Standing	2	2	2	2
Internal Control	2	2	2	3
Value for Money	2	2	2	3

From 2009/10 CPA will be replaced by CAA – see below for details.

Comprehensive Area Assessment (CAA)

From 2009/10 CPA will be replaced by the new CAA. CAA is an independent assessment of how well local services are working together to improve the quality of life for local people. It will make straightforward independent information available to people about their local services, helping them make informed choices and influence decisions. The table over the page shows the new Use of Resources categories which will be assessed under CAA.

Breckland: CAA Use of Resources		
	2009	2010
Managing Finances		
1.1 Planning for financial health		
1.2 Understanding costs & achieving efficiencies		
1.3 Financial reporting		
Governing the Business		
2.1 Commissioning and procurement		
2.2 Use of information		
2.3 Good governance		
2.4 Risk management and internal control		
Managing Resources		
3.1 Natural resources	X	
3.2 Strategic asset management	X	X
3.3 Workforce		X

Partnerships

The local authority is uniquely placed to bring together private, public and voluntary groups in the community to drive forward change. The Audit Commission have advised that if governance arrangements within partnerships are weak, or not fully thought through, then the partners discharging the accountable body role are at risk either financially or reputationally. As part of our strategy the desire to avert risk will not undermine the opportunity to use partnership arrangements to deliver improved services, as a solution we will ensure sound systems are in place.

We will ensure that there are effective controls and governance arrangements in place when the authority is the 'accountable body'. This will be underpinned by clear and well documented internal controls.

Balances and reserves

Reserves are defined by the Chartered Institute of Public Finance and Accountancy (CIPFA) as follows:

“Amounts set aside for purposes falling outside the definition of provisions should be considered as reserves, and transfers to and from them should be distinguished from service expenditure disclosed in the Statement of Accounts’.

A statement of the adequacy of reserves is prepared as part of the Council Tax setting reports. Reserves are reviewed annually by the Corporate Management Team and the Cabinet will receive a report on the Authority’s reserves, together with an assessment of the key financial risks.

Part 11 of the Local Government Act 2003 introduces a requirement for the Chief Financial Officer to report upon the robustness of the estimates made for the purposes of the budget and tax setting calculations and the adequacy of proposed reserves. There will be an assessment of the minimum level of reserves linked to:

- The risks identified in the corporate risk register.
- Demand led services and pressures upon them
- Inflation and interest rates
- Underwriting arrangements

We will set out to manage the risk and uncertainties by demonstrating that reserves and balances represent at least a minimum level after allowing for contingent liabilities. Setting the level of general reserves is one of the decisions to be made in the formulation of the medium term strategy.

The General Fund Balance will not be used to provide an on-going revenue funding stream with the exception of the costs of re-structuring, local government review, pension capital costs and associated costs. Consideration will also be given to short term fund initiatives (1 yr – 3 yrs), that themselves will have ongoing positive revenue funding implications. These initiatives are known as ‘invest to save’ options, with savings being returned to General Balances. We recognise that we need to realign our General Fund Balance to our preferred level and we will use the capital programme to help achieve this.

Reserves include earmarked reserves set aside for specific policy purposes and balances which represent resources set

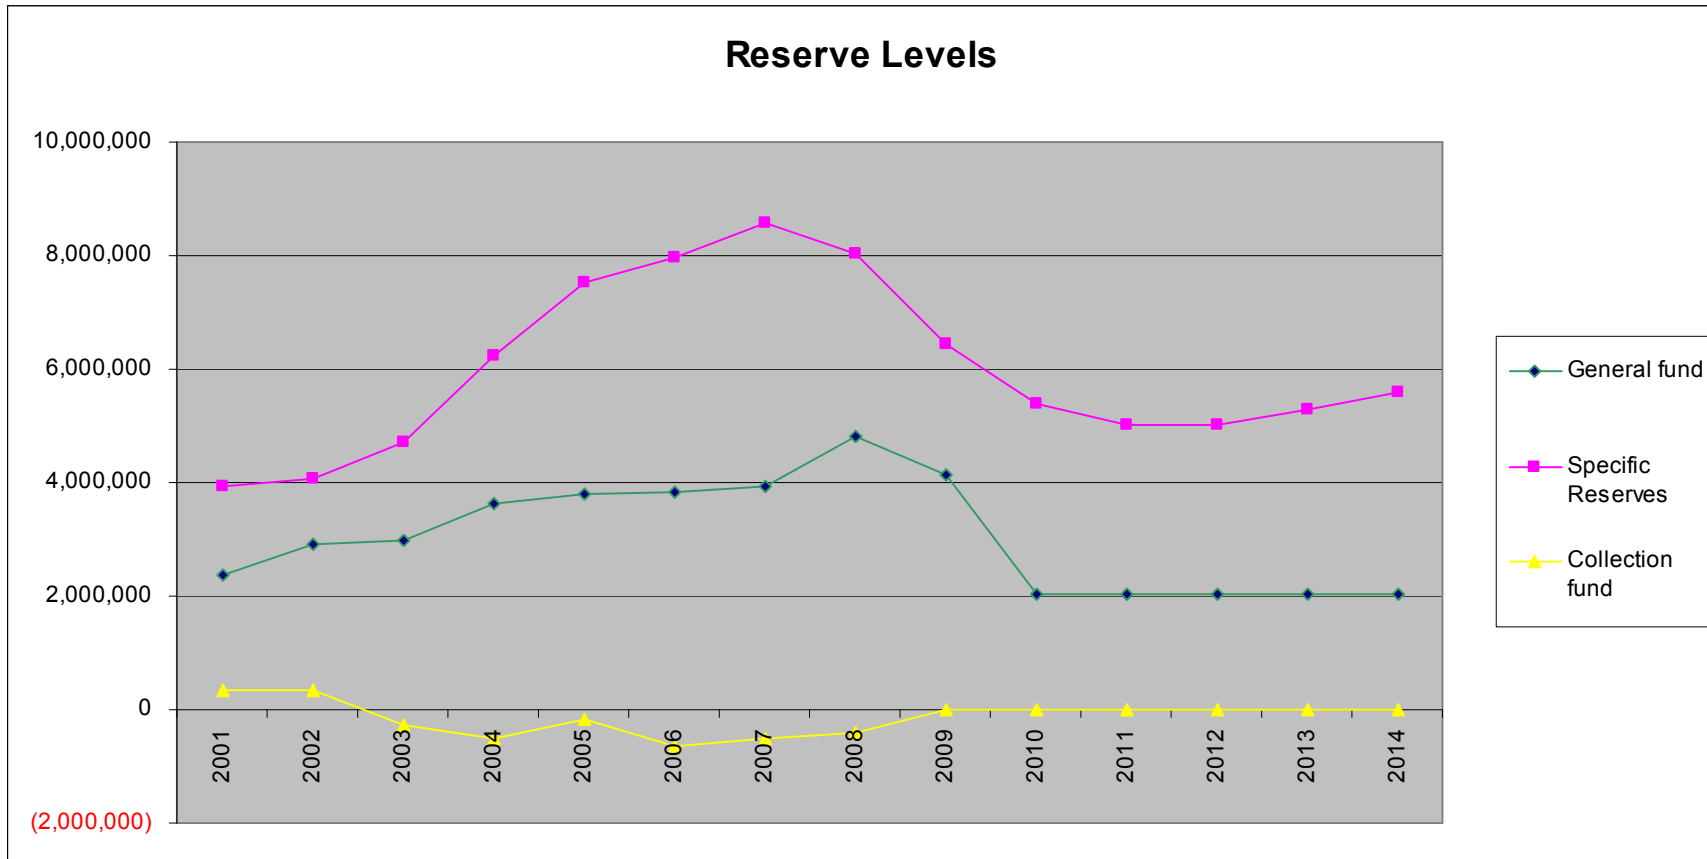

aside for purposes such as general contingencies and cash flow management. Expenditure should not be charged direct to any reserve.

For each reserve held there will be a statement setting out:

- The reason for/purpose of the reserve
- How and when the reserve can be used
- A process for annual review
- Minimum and maximum levels

The Authority's exposure to risk is regulated by the Corporate Management Team. Whilst it is generally accepted that risk mitigation does not necessarily drive a material increase in spending, it should nevertheless be borne in mind that risk exposure will influence the level of general reserves year by year. An assessment of the risks faced by the Council has been undertaken using a risk matrix. An evaluation was made of the short/medium term risks to the Council which could lead to overspends in 2009/10 and an evaluation of the factors which could impact on the Council's reserves over the longer term. In setting the level of General Balances, consideration has been given to the adequacy of financial control, the overall financial position, Medium-term financial plans and the strategic, operational and financial risks facing the Authority. Following this review, it is proposed that General Balances are set at a minimum level of £2m.

Reserves 2001-2014

Provisions

The CIPFA SORP "Statement of Recommended Practice" is prescriptive about when provisions are required. A provision must be established for any material liabilities of uncertain timing or amount to be settled by the transfer of economic benefits. As part of our overall strategy we will comply with the SORP.

Approved Treasury and Investment Strategy

This Annual Investment Strategy states which investments the Council may use for the prudent management of its treasury balances during the financial year under the heads of **Specified Investments** and **Non-Specified Investments**.

This Strategy also sets out:

- The procedures for determining the use of each asset class (advantages and associated risk), particularly if the investment falls under the category of “**non-specified investments**”;
- The maximum periods for which funds may be prudently committed in each asset class;
- The £ or % limit to be invested in each asset class;
- Whether the investment instrument is to be used by the Council’s in-house officers; and, if non-specified investments are to be used in-house, whether prior professional advice is to be sought from the Council’s treasury advisors;

The council has adopted the Chartered Institute of Public Finance and Accountancy (CIPFA) Revised Code of Practice on Treasury Management. The primary requirements of the Code are to set out the policies and objectives of the Council’s Treasury management activities, maintain Treasury Management Practices, preparation of a strategy, annual review and scheme of delegation.

The current strategy covers:

- the current treasury position;
- prospects for interest rates;
- treasury limits in force which will limit the treasury risk and activities of the Council;
- the borrowing strategy;
- the investment strategy;

- debt and investment projections;
- treasury performance indicators;
- the extent of debt rescheduling opportunities;
- any extraordinary treasury issues

We will set our minimum revenue provision based on the CFR (capital financing requirement). This will be reviewed if we undertake any borrowing.

5 Year Cash Flow Forecast					
Year	2009/10	2010/11	2011/12	2012/13	2013/14
	£000's	£000's	£000's	£000's	£000's
Opening balance	21,145	17,373	12,789	12,035	11,875

The above table assumes that only £6m (50%) of the at risk Icelandic investments is returned in 2010/11.

Balance Sheet

The balance sheet position has been updated as at 31st March 2009 and shows the last 3 financial years.

Consolidated Balance Sheet – Last 3 years			
	31st March 2007 £000's	31st March 2008 £000's	31st March 2009 £000's

IT and equipment			
> spend on IT as a %age of costs	2.32%	2.16%	2.49%

Notes:

This is the second year that we have calculated these indices. Many of the measures are standard accounting ratios, developed for use in the private sector. We intend to monitor trends and benchmark with other local authorities to compare our performance with other similar organisations.
